How to get Support? - Contact Program Office

Going forward, the Program Office will be your point of contact for academic, delivery, and administrative issues. A learner can get in touch with the Program office using the following channels:

Olympus Support Request

- The best way to contact the Program Office for any academic, non-academic, or general question or concern is via submitting a support request through Olympus. To submit a support ticket, navigate to the "Need Assistance?" tab and click on the "Raise Request" button. Select the Area where you require help, enter a subject line and a description, and then click "Raise Request" to submit your request.

Program Manager

- **Vartika Misra** will be your Program Manager for your cohort. She will be in charge of your learning journey and deliverables after the orientation. She will guide you through challenges and keep you on track and encourage you throughout your learning journey. To schedule a call, use this calendar link. Feel free to reach out to her via WhatsApp for any assistance.

Program Office Email ID

- In case a learner is facing any concerns and is unable to access Olympus, they can write to us at office.dsml.mit@mygreatlearning.com

Senior Program Manager

- A learner can connect with the Senior Program Manager Amit Thakur at +91 931943 6097 or connect via email at amit.t@mygreatlearning.com if they are unable to reach out to other support channels or would like to escalate your concerns.

We promise a response within 24 working hours however the resolution time may vary depending on the complexity of the query.

We hope all this information will help you kickstart your journey in this program. If you have any queries, please feel free to contact your Program Manager or raise a support request.

The program office is your partner in ensuring you achieve the desired learning outcomes. Use the following means to communicate to the Program Office and with your peers to get a timely response to your queries.

Olympus Announcements and Notifications

Program Office may also communicate with the learners when important information has to be solicited, shared, or in response to your questions. The program office will post an announcement when new course material is available and if there are any changes to upcoming courses and other program-related issues, these announcements will appear on your home page of the LMS. Please ensure that you log in regularly and pay attention to any new announcements to ensure that important information is not missed. These may involve the availability of scores, reminders for an upcoming assessment due date, and when assessments are released. These notifications will also appear on your home page of the LMS.
