# Quick Notes - Introduction to Python

1. We would recommend that you manually change the resolution of the video to 720p or 1080p to avoid any video blur issues. (Please refer to the image below for changing resolution)

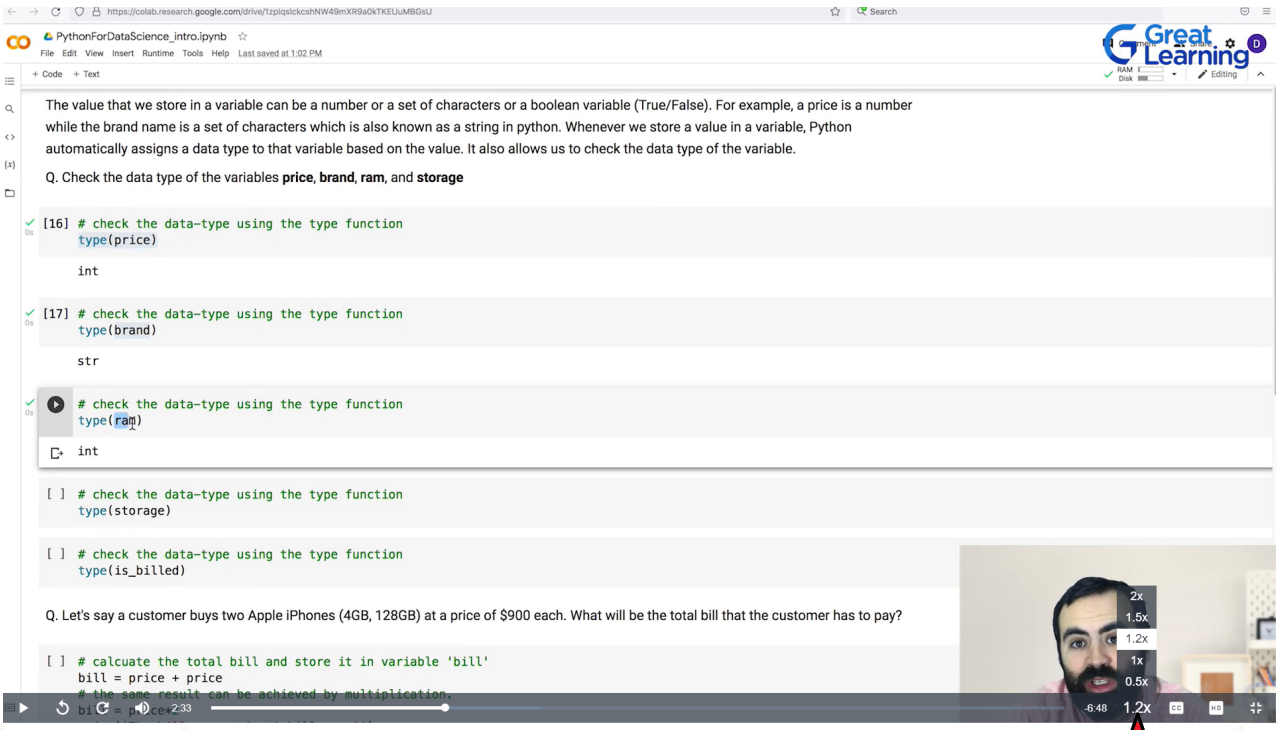

Click here and choose 720p or 1080p

2. All the videos come with subtitles in the English language. (Please refer to the image below to enable subtitles for the video)

Click here to enable subtitles

3. We recommend you increase or decrease the playing speed of the videos if you find the videos too slow-paced or fast-paced respectively. (Please refer to the image below to adjust the playing speed of the video)
