Video Lecture Materials

The following materials are highly recommended to be downloaded as these files are used in the lecture videos so that you can work simultaneously with the faculty while watching the video content.

Lecture Video Notebook:

Python_For_DataScience_intro.ipynb

Lecture video notebook is the same notebooks that faculty have used while teaching the concepts in the lecture videos. By downloading this notebook, you can work along with the professor through the video content.

Images:

Box_plot.png

The above image is used in the lecture video notebook. Kindly download the image and save it in the same working directory to avoid errors while running the notebook.
