How to open an .ipynb file in Google Colab

Download a Jupyter Notebook with the **'.ipynb' extension** from Olympus. For example:

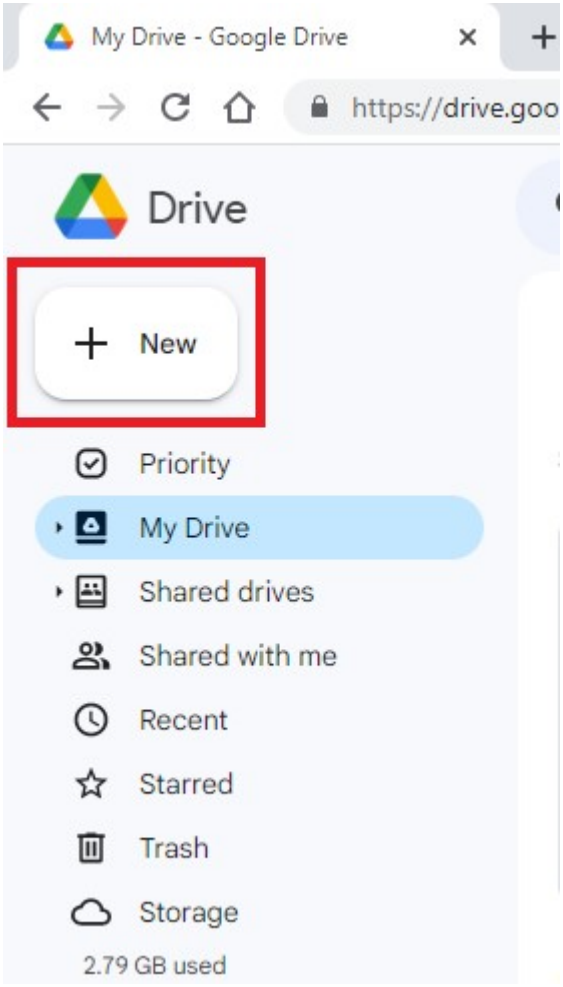

Click on the highlighted button to download the file

Follow the steps below to open the **.ipynb** file in **Google Colab**:

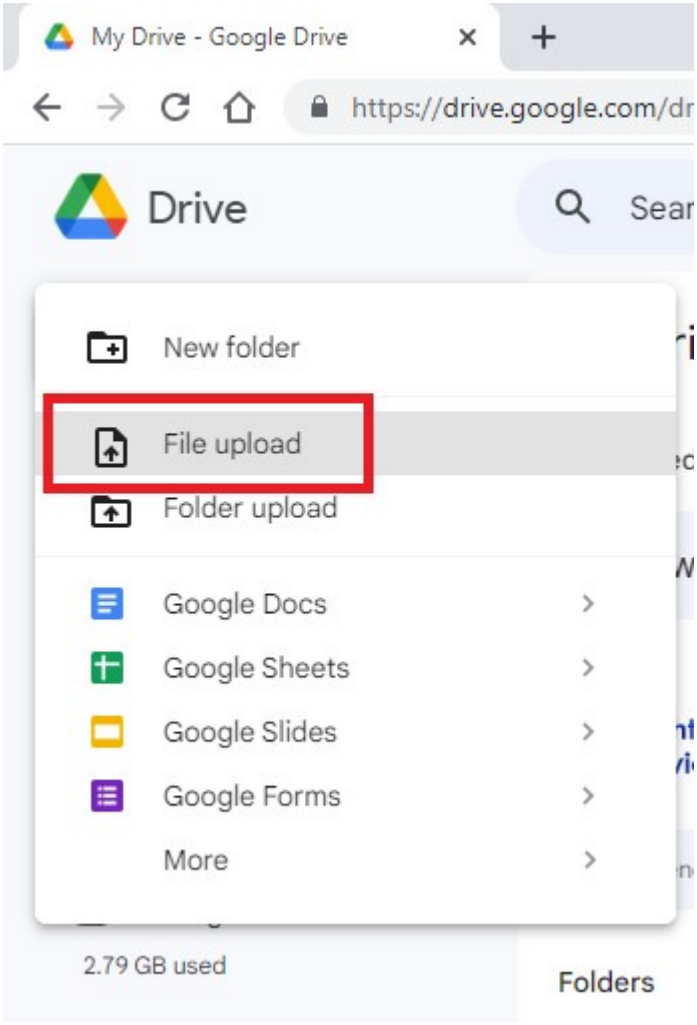

1. First open a browser and **sign-in** into your **GMAIL** account

2. Open your **Google drive**

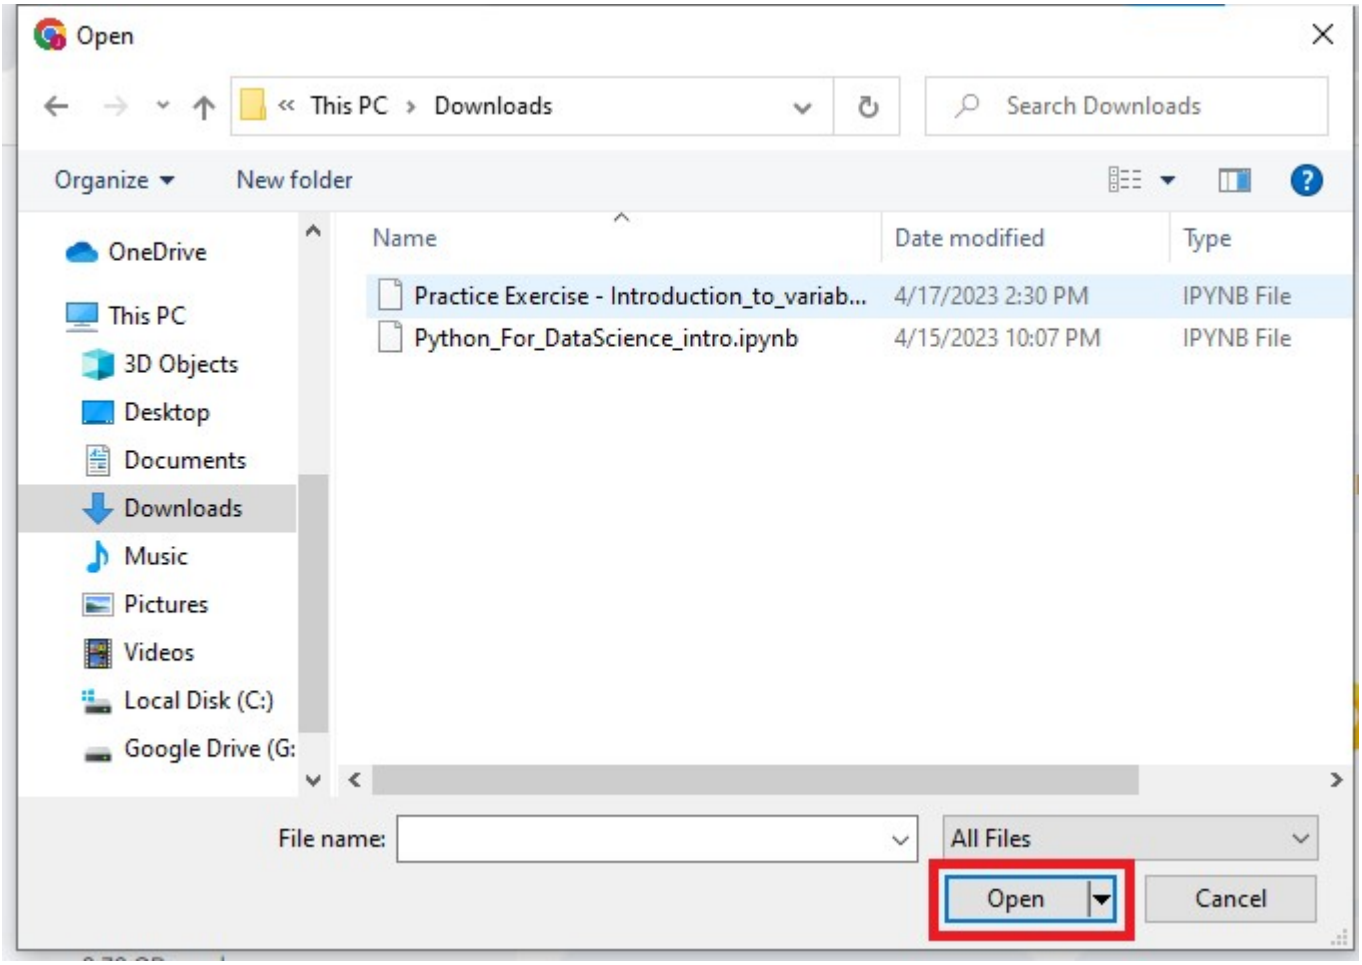

3. **Upload** the downloaded file into your **Google drive**. To do this operation click on **New** as shown in the below image

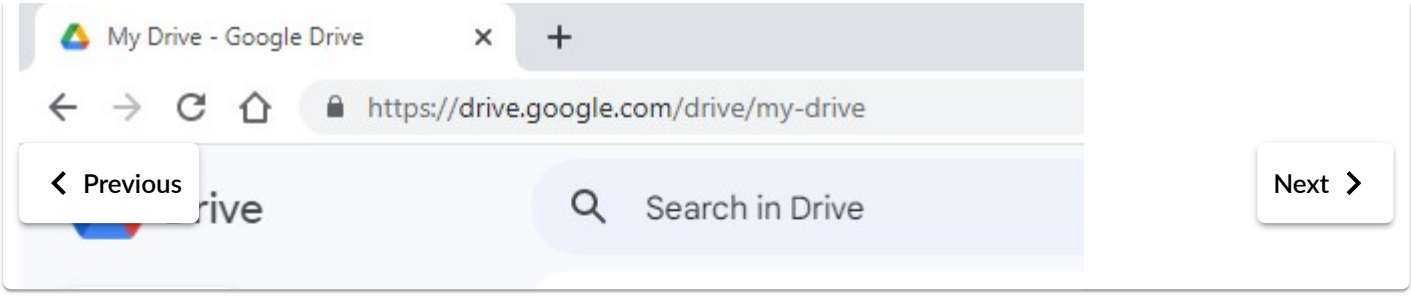

4. Click on **File upload**

5. Navigate to the folder where your **Jupyter Notebook(.ipynb file)** from Olympus was downloaded to. Usually, the file will be downloaded to your default download folder named **'downloads'**. Select the file and click on **Open** as shown below

6. The file will be **uploaded** to the **Google Drive** once you do the above step. You can see the file in your **Google Drive** as shown in the below image
