Course Overview

- Course Outline
- Know Your Faculty
- Learning Instruments
- Attaching Notebooks while raising Support Requests
- Quick Note to reiterate the use of FAQs_GLC

Introduction to Data Science

- Introduction to Data Science

Introduction to the AI Landscape

AI Landscape - History and Context

9m

AI Landscape - Organisations, People, and Data

10m

Module: Introduction to Python

Quick Notes - Introduction to Python

The following materials were used in the videos. It is highly recommended that you download these files and work simultaneously with the faculty while watching the video content.

Video Lecture Materials

How to open an .ipynb file in Google Colab

Guide to Google Colab

1.1 Introduction to Python and Google Colab

7m

1.1 Test Your Understanding

Your Marks: 8/8

1.2 Variables and Type Conversion in Python

15m

1.2 Test Your Understanding

Your Marks: 9/9

1.3 Lists and Tuples in Python

12m

1.3 Test Your Understanding

Your Marks: 8/8

1.4 Dictionaries in Python

7m

1.4 Test Your Understanding

Your Marks: 4/4

1.5 Conditional statements in Python
8m

1.5 Test Your Understanding
Your Marks: 4/4

1.6 Looping statements in Python
9m

1.6 Test Your Understanding
Your Marks: 5/5

1.7 List comprehensions in Python
6m

1.7 Test Your Understanding
Your Marks: 2/2

1.8 Functions in Python
7m

1.8 Test Your Understanding
Your Marks: 7/7

1.9 Args and Kwargs in Python
11m

1.9 Test Your Understanding
Your Marks: 6/6

The following document can be referred to for quickly finding answers to the commonly asked questions by the learners regarding the week's content.

FAQ - Introduction to Python

FAQs on Google Colab VISIT

Reference Material

If you are looking to experiment more with conditional statements and looping statements, this link will be useful. Visit this after learning the basics of conditional statements and looping statements for the learning videos provided. This article provided good examples of conditional statements and looping statements. VISIT

If you are looking to experiment more with List comprehensions, this link will be useful. Visit this after learning the basics of list comprehensions for the learning videos provided. This article gives information about the uses and advantages of List Comprehensions. VISIT

Guidelines for working with external data in Google Colab: Local files, Google Drive files, Google Sheets, and Cloud Storage VISIT

Practice Quiz

Practice Quiz - Introduction to Python
Your Marks: 9/10

Practice Hands-on Quiz

Quick Notes - Practice Quizzes

Practice Quiz 1.1 - Intro to Variables
Your Marks: 10/10

Practice Quiz 1.2 - Collection of Variables
Your Marks: 10/10

Practice Quiz 1.3 - Conditional Statements
Your Marks: 9/10

Practice Quiz 1.4 - Looping Statements
Your Marks: 10/10

Practice Quiz 1.5 - Functions
Your Marks: 10/10

Python Practice Exercises

Practice Exercise #1 - Datatypes

Practice Exercise #2 - Introduction to Variables

Practice Exercise #3 - Collection of Variables

Practice Exercise #4 - Conditional Statements

Practice Exercise #5 - Looping Statements

Practice Exercise #6 - Functions

Python Practice Exercises' Solutions

Practice Exercise Solution #1 - Introduction to Variables

Practice Exercise Solution #2 - Collections of Variables

Practice Exercise Solution #3 - Conditional Statements

Practice Exercise Solution #4 - Looping Statements

Practice Exercise Solution #5 - Functions

Module: Statistics and Probability

Basic Statistics

2.1 Why Statistics and Big Data
9m

2.1 Test Your Understanding
Your Marks: 2/2

2.2 Statistics - Methods
7m

2.2 Test Your Understanding
Your Marks: 3/3

2.3 Classical Definition and Types of Statistics
3m

2.3 Test Your Understanding
Your Marks: 2/2

2.4 Some Vital Terms in Statistics
12m

2.4 Test Your Understanding

Your Marks: 3/3

2.5 Sources and Types of Data, Data Sets

10m

2.5 Test Your Understanding

Your Marks: 3/3

2.6 Data Objects, Attributes and Attribute Types

10m

2.6 Test Your Understanding

Your Marks: 2/2

2.7 Summary - Basic Statistics

1m

2.7 Test Your Understanding

Your Marks: 1/1

Descriptive Statistics

2.8 Outline - Descriptive Statistics

1m

2.8 Test Your Understanding

Your Marks: 1/1

2.9 Data and Histograms

8m

2.9 Test Your Understanding

Your Marks: 3/3

2.10 Central Tendency and 3 Ms

11m

2.10 Test Your Understanding

Your Marks: 2/2

2.11 Measures of Dispersion, Range, IQR

5m

2.11 Test Your Understanding

Your Marks: 3/3

2.12 Standard Deviation

9m

2.12 Test Your Understanding

Your Marks: 2/2

2.13 Coefficient of Variation

3m

2.13 Test Your Understanding

Your Marks: 2/2

2.14 The Empirical Rule and Chebyshev Rule

6m

2.14 Test Your Understanding

Your Marks: 2/2

2.15 Five Number Summary, Boxplot and Other Plots

14m

2.15 Test Your Understanding

Your Marks: 5/5

2.16 Data Visualizations

2m

2.16 Test Your Understanding

Your Marks: 2/2

2.17 Correlation Analysis

9m

2.17 Test Your Understanding

Your Marks: 2/2

2.18 Summary - Descriptive Statistics

1m

2.18 Test Your Understanding

Your Marks: 1/1

Probability

2.19 Probability - Meaning and Concepts

10m

2.19 Test Your Understanding

Your Marks: 5/6

2.20 Rules for Computing Probability

13m

2.20 Test Your Understanding

Your Marks: 6/6

2.21 Marginal Probability and Example

6m

2.21 Test Your Understanding

Your Marks: 5/5

Lecture Slides

Lecture Slides #1 - Basic Statistics

Lecture Slides #2 - Descriptive Statistics

Lecture Slides #3 - Probability

Practice Quiz

Practice Quiz - Statistics and Probability

Your Marks: 13/15
